

08 August 2022

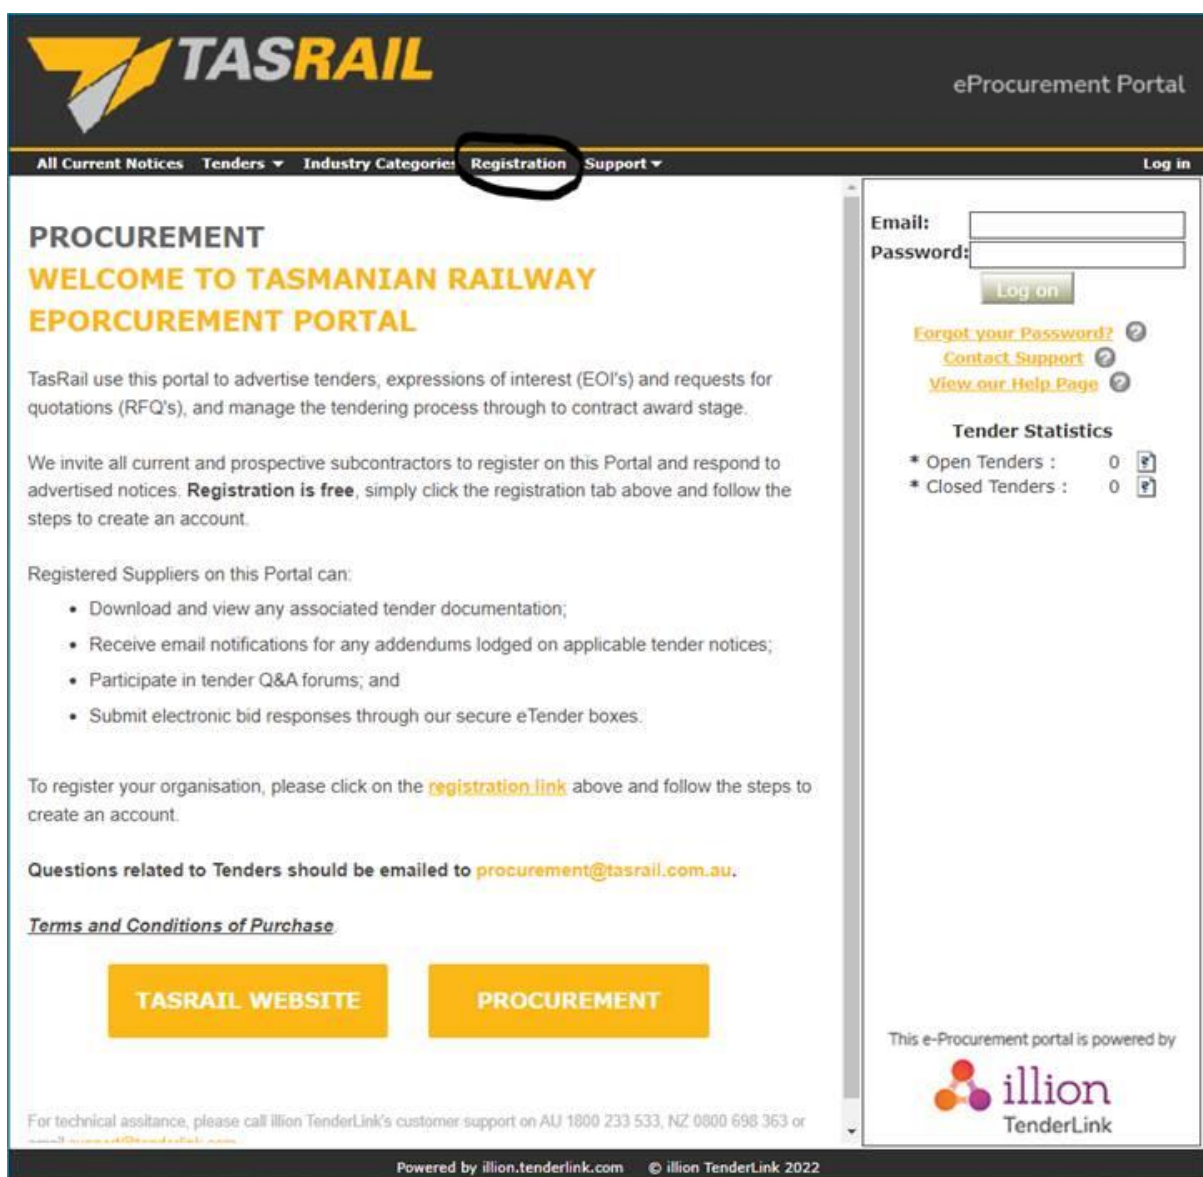

Dear Valued Supplier,

Tasmanian Railway Pty Ltd would like to invite you to register into their e-Tendering portal, powered by illion TenderLink to receive notifications on all Request for tender, Request for quotation and Request for proposal activities and opportunities.

Please register to ensure you don't miss out on new notices that are relevant to your business.

To register, please click the link below then click "Registration" as shown on the below screenshot:

<https://portal.tenderlink.com/tasrail>

The screenshot shows the TasRail eProcurement Portal registration page. At the top, there is a navigation bar with the TasRail logo and the text "eProcurement Portal". Below the navigation bar, there are several tabs: "All Current Notices", "Tenders", "Industry Categories", "Registration" (which is circled in red), and "Support". The main content area is titled "PROCUREMENT WELCOME TO TASMANIAN RAILWAY EPROCUREMENT PORTAL". It contains a welcome message, a list of benefits for registered suppliers, and a registration link. On the right side, there is a login form with fields for "Email:" and "Password:", a "Log on" button, and links for "Forgot your Password?", "Contact Support", and "View our Help Page". Below the login form, there is a "Tender Statistics" section showing "Open Tenders : 0" and "Closed Tenders : 0". At the bottom, there are two buttons: "TASRAIL WEBSITE" and "PROCUREMENT". The footer contains technical assistance information and the text "Powered by illion.tenderlink.com © illion TenderLink 2022".

Additionally, to this, please find below a link to the TenderLink help page which contains some video tutorials on how to register, download documents and submit a response:

<https://illion.tenderlink.com/resources/help/>

Furthermore, please find attached a number of PDF documents with step-by-step instructions which may prove useful when using TenderLink for the first time.

Finally, should you require assistance from a TenderLink team member, please contact them directly with the link below:
