

MEDIA RELEASE

6 February 2014

MEET TASRAIL'S NEW LOCOS AT STATEWIDE WEEKEND EXTRAVAGANZA

GET up close and personal with the brand new locomotives that will be driving TasRail's freight services into the future.

The TasRail Tour de Tassie will see the public launch of the new locomotives, six of which have already arrived and are at various stages in the commissioning process.

One of these special new locos will be on show in Burnie, Launceston and Hobart this weekend.

The purchase of TasRail's new rolling stock assets – which will see another 11 brand new locomotives arrive in the state in the near future has been a massive undertaking that will result in a step change in TasRail's service delivery.

The launches are the perfect chance for TasRail to introduce the Tasmanian community to the transformation taking place in the business.

The loco will be out and about to meet the locals in these locations:

- Saturday, February 8 on the Burnie Foreshore North Terrace from 10am to 1pm
- Sunday, February 9 at the Western Junction Station on Evandale Road from 10am to 1pm
- Monday, February 10 at the Royal Hobart Regatta Grounds from 10am to 4pm

The Tour de Tassie will be an event to remember at all three locations with giveaways, showbags, barbecues, and the chance to meet key TasRail staff and chat with the people charged with driving these impressive new vehicles.

Visit <https://www.facebook.com/Follow.TasRail> for up to the minute details and photos.
